Dear Sir/ Madam,

Referring to the subject above, please solve the issue as I was not able to log in for the exam link by using the username and password provided to me by MITSDE.

I was trying to log in today for attempting my 2nd subject exam but unable to log in.

For your information, I have successfully logged in by using the same username and password on 26-05-2024 for the 1st subject exam and there were no issues at all.

Please see the screenshot of the same. It is showing invalid username or password.

Kindly resolve the issue at the earliest as I have to complete 5 more subjects within next 4 dyas.

Best Regards,
